Hilden is a town of 56,000 and it is located right next to Düsseldorf. In these important, traditionally industrial districts surrounding Düsseldorf, the modern regional economic structure has been flourishing in recent years. The central location of the Gewerbepark-Süd offers a number of great advantages: the Düsseldorf airport is just a short trip away, the proximity to the motorway intersection Hilden (A3, A46) and the connection to the A59 and the S-Bahn connection ensure smooth transportation of goods and excellent customer accessibility. A bus stop (line 03) at "Gewerbepark-Süd" connects you to the regional public transport system.

The city center of Hilden can be reached in just a few minutes on foot. The pedestrian zone boasts fantastic shopping and attracts many people from the surrounding cities. The Hilden Stadtwald, the recreation area Düsseldorf-South with the Unterbacher See and the nearby Rhine river offers many opportunities for leisure activities and sports.

History

The "Gewerbepark-Süd" was founded in 1904 as an umbrella factory and has been owned by the Braun family since then. Through the preservation of historic elements of the architecture and generous outdoor and green areas, an attractive atmosphere has emerged, which clearly distinguishes the Gewerbepark Süd from other commercial parks.

The tenant structure of the 42,000 m² commercial park South is extremely diverse. More than 200 jobs are offered at more than 50 companies in the fields of crafts, services, trade and manufacturing. This juxtaposition of big and small, modern and traditional, old and new has led to a great atmosphere among the tenants. Everyone here does their best to be helpful toward their neighbors and new tenants start to feel right at home in no time at all.
